SaaS WITH A PURPOSE

bizlinkIT delivers best practice accounting software in a flexible and cost effective way. SaaS with a purpose is a subscription based model, which allows businesses uninterrupted access to systems over the internet. With the bizlinkIT SaaS platform your information is online, integrated, real time and at your finger tips. We can assist your business with financial management and expert advice to strengthen platforms and grow profits with better, faster information. bizlinkIT's SaaS with a purpose offers SME's the following benefits over traditional systems:

- Reduced system infrastructure
- Automated asset finance management
- One point of data entry and updates
- Failsafe disaster recovery & security
- Scalable for your business growth
- To read accounts easily
- To quickly interpret business information
- To review performance whilst away from the office
- To access data from multiple businesses or stores
- To create meaningful management reports
- To access powerful big business tools
- To implement benchmarking procedures

bizlinkIT's SaaS with a purpose is designed specifically for small to medium sized businesses who want a "big business" accounting package for a small business price.

BUSINESS SERVICES

We can take the pain out of processing your monthly compliance data.

We will:-

Receive your day to day information, i.e. daily tills and accounts payable invoices, automated through our SaaS tools.

- Process your monthly bookkeeping information efficiently i.e. bank and accounts payable statement reconciliations.
- Prepare a list of your payments to suppliers and superannuation funds.
- Prepare and lodge your BAS returns.
- Provide meaningful profit and loss results for your business – available over the internet.
- Monitor your Cashflow and assist with the ups and downs.

Take the headache out of your compliance whilst also receiving meaningful reports as to how your business is performing relevant to industry benchmarks as well as your own.

Contact us now to arrange a business consultation and to ensure your business is utilising tomorrow's management solutions today.
